DETAILED ACTION

1) Claims 272 to 306 are pending in the instant application. Claims 235 to 243 and 245 to 271 have been canceled and claims 272 to 306 have been added as requested by Applicant in the correspondence filed 19 July of 2007.

2) Any objection or rejection of record that is not expressly repeated in this action has been overcome by Applicant's response and withdrawn.

3) The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Double Patenting

4) Claims 272 to 306 are rejected on the ground of nonstatutory double patenting over claims 1 to 76 of U. S. Patent No. 6,955,887 since the claims, if allowed, would improperly extend the "right to exclude" already granted in the patent.

The subject matter claimed in the instant application is fully disclosed in the patent and is covered by the patent since the patent and the application are claiming common subject matter, as follows:

The pending claims are generic to and fully encompass the patented subject matter.

Furthermore, there is no apparent reason why applicant was prevented from presenting claims corresponding to those of the instant application during prosecution of the application which matured into a patent. See *In re Schneller*, 397 F.2d 350, 158 USPQ 210 (CCPA 1968). See also MPEP § 804.

Art Unit: 1649

5) In addition, claims 272 to 306 are provisionally rejected on the ground of nonstatutory double patenting over claims 287 to 337 of copending Application No. 10/725276 essentially for those reasons of record as applied to claims 235 to 243 and 245 to 271 in the office action mailed 19 April of 2007. This is a provisional double patenting rejection since the conflicting claims have not yet been patented.
